DD/S&T Activities Overseas

X1 I. The threat posed by the USSR and Communist China to our national security relates closely to the progress each has achieved in advanced weapons systems development. The Agency's ability to assess the significance of these developments in the missile, space and nuclear fields depends heavily upon the effectiveness [REDACTED] of our technical collection programs overseas, [REDACTED]

25X

A. The CIA U-2R aircraft are maintained at two operating locations; Edwards AFB, California [REDACTED] The purpose of these elements is to provide a world-wide, rapid response, overhead or peripheral reconnaissance capability.

25X

25X1 ~~W~~ B. [REDACTED]
25X1 [REDACTED] coverage of the PRC coastal facilities. The significance of recent photo intelligence collected from these efforts is limited by the U.S. Government policy prohibiting an approach closer than 25 NM to the mainland.

D. The Edwards Detachment serves as a test and development center for U-2 [REDACTED] collection systems. Additionally, they maintain a capability to deploy to any operating locations and conduct reconnaissance missions in response to National requirements. All CIA U-2 pilot training is conducted at this detachment.
